Forecast for Friday 07 Jun 2024

Weather: Increasing west or southwest wind through the early morning with rain sweeping in from the northwest, heavy for a time during mid-morning. After a few scattered showers around lunch time, weather will turn dry for the afternoon with good sunny spells. Feeling warmer than on previous days at lower levels, although still chilly in the wind and on higher slopes.

Chance of cloud-free hill tops above 800m: 20% in the morning, increasing to 80% in the afternoon.

Low cloud and visibility: Broken low cloud in the morning, around 500-700m, lifting and dispersing as rain moves away in the afternoon. Generally good visibility, but moderate to poor for a period in the morning due to precipitation.
